Learning by doing concept is promoted by providing opportunities to students for conducting field work, surveys on real life issues, practical training, video making in labs/ college events, making business plans, hands-on training etc. Students are accompanied to educational tours. However, during Covid 19 pandemic, many events and activities were conducted online. In order to enhance the overall learning experience, intra-college competitions like poster making, slogan writing, collage making, essay writing, declamation, debate etc. are conducted from time to time. The class is divided into groups and team assignments, role play, group discussions, subject quizzes, educational games, case studies, news reporting, presentations and flipped classrooms are deliberated to boost the participative learning. The students are sensitized about social issues and are promoted to gauge various issues at the global level. Our teaching-learning techniques are inclined to connect academic learning to real life issues which raises students' awareness and sense of responsibility.
