EVIDENCE OF SUCCESS

- Number of library users is increased
- Number of books circulated among students is increased
- All books uploaded on KOHA – Software

BEST PRACTICE-2

TITLE :- Go Green , Save the planet

OBJECTIVES:

-

The objectives of this practice are to promote and advocate environmental awareness both inside and outside the campus and to preserve an eco friendly environment. The objective also includes environmental awareness and education ,the use of sustainable energy and energy efficient measures etc

THE CONTEXT

The practice aims to create awareness among students about environmental issues keeping in mind biodiversity loss, effects of global warming and habitat loss. It also aims at preserving and helping to prosper with the existing ecosystem.

THE PRACTICE

Keeping this perspective in mind GBCC has implemented green friendly practices as follows -

Ban on use of single use plastic products in canteen as well as inside the campus.

- Ban on smoking in the campus
- Restricted entry of automobiles in the campus.
- Installation of solar panels.
- Replacement of all lights with LED's.
- Systematic waste management.
- Organising of programs such as planting of trees to celebrate World environment Day ,World Earth Day etc.
- Environmental awareness campaigns held through rallies and various competitions like poster making etc.

EVIDENCE OF SUCCESS

- Single use plastic free campus.
- Pollution free campus.
- Well maintained greenery.
- Use of conventional energy reduced due to use of solar energy.
- RO purified drinking water facility to promote healthy lifestyle.
- Sanitary napkin incinerator helps the girl students for easy disposal of sanitary napkins.
- Problems Encountered and Resources required-
- Lack of manpower to maintain greenery in the campus
