POLICY DOCUMENT ON ENVIRONMENT AND ENERGY USAGE

The Environment and Energy usage policy of Govt. Bikram College of Commerce, Patiala is to manage energy so as to minimize its impact on the environment and to invest in sustainable growth through clean environment. As an institution we understand the immense potential of renewable energy. The policy implies to explore the renewable energy resources to reduce the burden of the government and to find ways to switch to the sources that are energy efficient and renewable. This environment and energy policy is applicable for all the components of the institution and to all its stakeholders and to the various activities undertaken by the institution. It will enable us to become energy independent and efficient in a cost effective way' This policy will help us to realize our responsibilities and commitment to conservation of natural resources about reducing air & water pollution and greenhouse gas emissions and to limit their usage. Eco club is devoted to the cause of environmental awareness, to undertake green initiatives and to conduct green literacy programs to save energy and protect the environment.

Objectives

- To assess our energy usage and measure its impact on the environment.
- To install LED and Solar lights in the campus to save the energy.
- To organize tree plantation drives and make students adopt the trees.
- To implement the zero-tolerance policy on single use plastic in the institution.
- To host awareness programs about environment protection.

- To encourage faculty and students to switch off lights, fans, air conditioner and electrical appliances in labs and classrooms when not in use.
- To generate awareness about segregation of the waste.
- To adopt paperless measures to minimize impact on nature.
- To organize seminars/lectures on the initiatives that should be undertaken to control pollution and save environment.
- To carry out plantation drives.
- Installation of Solar Panels to reduce expenditure on electricity bills.

The policy is communicated to the students and employees through internal communication channels.
